

BMT FOR SAFETY 2017

Conference and Workshop Manchester, UK

Conference: 29th November
Workshop: 30th November

The Conference: 29th November

This conference will cover the latest thinking in safety leadership.

Safe workplace environments are primarily created by leaders. Purposeful leadership is the difference between an environment which makes it easy for people to 'do the right thing' around safety, health and wellbeing, and one that does not.

Leading representatives from industry will share how they have used the principles of behavioural science to achieve sustainable improvements in a wide variety of health, safety, wellbeing and other areas. By changing their own leadership behaviours, they have created the environment for work to be carried out efficiently, effectively and safely in both the short and long terms.

Registration Details

Register and book your tickets online at: www.hollin.co.uk or call Nicola on 07788 252 410.

£350 (ex. VAT) per day. The price includes on-site parking, lunch and refreshments throughout the day.

Conference Speakers

Our speakers are leaders from various industries and behavioural experts, including:

- Ian Bradler, Head of Safety And Sustainable Development for Infrastructure Projects and Signalling, Network Rail
- Dr Richard Kazbour, Managing Director, Harkera
- Will Eyre, Head of Construction Services, United Utilities
- Peter Whitman, Highways Sector Director, Taylor Woodrow
- Colin Spowart, Dealer Manager, Volvo Trucks UK
- Garry Sanderson, Director, Visualyze Solutions
- Joanne Benjamin, Training Director, Hollin
- Rachel Edwards, Consulting Director, Hollin
- Bruce Faulkner, Managing Director, 3 Simple Rules
- Howard Lees, Managing Director, Hollin

The Workshop: 30th November

The workshop will take place the day after the conference, giving time to go into the conference topics in more depth. On Thursday 30th November, join a small group of no more than twenty people to learn more about applying behavioural science to safety, health and wellbeing.

The session will have something for everyone: It will be accessible to newcomers as well as featuring the latest working practices so that experienced BMT practitioners go home with something new to try as well. The workshop day gives everyone an excellent opportunity to interact with the speakers, network and learn in a pleasant and relaxed atmosphere.
